

COMPANY PROFILE

Authentic Engineers
BANGLADESH

Authentic Engineers Bangladesh is a new-generation engineering and consultancy firm, built on a vision to provide smart, sustainable, and technically sound solutions in the fields of Fire Safety, Electrical, Structural, Civil, MEP, and Smart Building systems

INTRODUCTION

ABOUT OUR COMPANY

ABOUT US

Authentic Engineers Bangladesh is a next-generation engineering and consultancy firm dedicated to delivering smart, sustainable, and technically sound solutions in Fire Safety, Electrical, Structural, Civil, MEP, and Smart Building systems. Built on engineering excellence, compliance expertise, and modern project delivery, we ensure efficiency, accountability, and client satisfaction from concept to completion. Our team of seasoned engineers, safety experts, and consultants brings hands-on experience in RMG, commercial, industrial, and public infrastructure projects.

OUR VISION

To be the most trusted engineering partner in Bangladesh for integrated, safe, and sustainable engineering solutions.

OUR MISSION

To deliver innovative, compliant, and cost-effective engineering services through smart systems, expert professionals, and client-focused project management.

OUR CORE VALUES

- **Integrity** – Always doing what’s right for our clients and stakeholders
- **Innovation** – Leveraging technology and modern tools for smarter engineering
- **Safety & Sustainability** – Prioritizing life safety and environmental responsibility
- **Excellence** – Maintaining the highest standard in service and delivery
- **Client-Centric** – Building lasting partnerships through commitment and care

WHAT MAKES US DIFFERENT

SMART MANAGEMENT SYSTEM

We operate through a structured and transparent management system that connects our field engineers, project coordinators, and clients through a unified digital platform.

CRM (CLIENT RELATIONSHIP MANAGEMENT)

Every project is tracked, updated, and communicated through our CRM system to ensure responsiveness, real-time reporting, and high client satisfaction.

TECHNICAL EXPERTISE IN MULTI-DISCIPLINES

From architectural design to fire protection, electrical layout to solar systems, our multi-disciplinary team provides one-window solutions.

COMPLIANCE-DRIVEN ENGINEERING

We align every service with BNBC, NFPA, Accord, RSC, ILO, and other relevant codes and client compliance standards.

SUSTAINABILITY INTEGRATION

Our green project planning and energy management systems help clients reduce environmental footprint and optimize

ANNUAL MAINTENANCE CONTRACT (AMC) SERVICES

At **Authentic Engineers Bangladesh**, we understand that installing fire safety, electrical, and building systems is only the first step—keeping them in peak working condition is what ensures safety, efficiency, and compliance year after year. Our **Annual Maintenance Contract (AMC)** services are designed to give you complete peace of mind, reduce downtime, and extend the lifespan of your critical systems.

Routine Inspections & Preventive Maintenance – Scheduled visits to ensure all systems operate efficiently.

Our Main Services Include:

- Fire Alarm System
- Fire Protection System
- LPS
- Solar System
- IT
- Air Condition

SYSTEMS COVERED

Fire Detection & Alarm Systems

Fire Protection & Sprinkler Systems

Fire Extinguishers

Fire-Rated Doors

LPS

Air Conditioning System

MEP

ETP

Solar System

WHAT WE OFFER UNDER AMC

Routine Inspections & Preventive Maintenance – Scheduled visits to ensure all systems operate efficiently.

On-Call Support & Emergency Response – Quick response to system failures or emergencies.

System Testing & Calibration – Ensuring all fire detection, suppression, and electrical systems work as per safety standards.

Spare Parts & Consumables Support – Genuine brand parts replacement to maintain original performance.

Compliance & Safety Reports – Documentation for audits, insurance, and regulatory bodies.

Electrical Equipments & Panels
